- 3) Purchase cloud storage recordings in the cloud.
- 4) The switch for the APP to notifications.
- 5) View the cloud-stored
- 6) Share the device with friends, family members.

Four. Cloud services

What is cloud storage?

Cloud storage is a safe and reliable cloud video storage service for smart camera users.

Why buy cloud storage?

- (1) Stable and reliable: Cloud recording will not lose data due to damage to the memory card, and there is no need to worry about the leakage of private data due to the memory card being stolen.
- (2) Data security: Cloud video will not be lost due to the camera being stolen or damaged. When the camera is stolen or damaged, the previous video will remain in the cloud within the validity period of the cloud video. The owner can view and download it anytime, anywhere.

Q: What to do if the camera cannot be connected goes offline abnormally during use?

1. Check if the camera power and router network are normal.
2. Unplug the camera power and restart camera.
3. Restore the camera to factory settings, and then add t device again according to the instructions.
